

"Bend a Fork! Harness the Power of Your Intentions!"

Transformation Trifecta: Energy, Light & Information—Quantum Style"

Bend a fork! Once you have experienced harnessing your intention to make metal malleable in your hands, it's much harder to doubt your power for transformation. Fork bending helps us glimpse into the quantum reality of infinite possibilities. Spend the afternoon immersed in this quantum world. Surrounded by beautiful décor, you will bathe in the Tachyon Chamber's frequency while discovering exciting new ways to access quantum healthcare.

Celeste will present a PowerPoint review of some of the latest literature on quantum approaches to utilizing energy (aka the life force), light, and information to improve our quality of life. Einstein's famous concept, "The higher the frequency of light, the more energy..." will come to life as we experience how increasing our quantity of light, energy, and information (QOLEI) proportionally affects our quality of life (QOL) $^{\wedge}QOLEI \propto ^{\wedge}QOL$. Celeste will also share her experiences with the Tachyon and LifeWave products that have helped her immensely.
