

## **Pull Quotes by Celeste E Mattingly**

Tachyon improves body, mind, and spirit. It clears the way for healing, anti-aging, and increased quality of life.

Providing state-of-the-art energy medicine with Tachyon has no comparison. There is nothing like it on the planet.

**Tachyon particles are around us at all times as the Life Force, Chi, or Prana. Tachyon particles travel faster than the speed of light, so they are regarded as hypothetical in Newtonian psychics but they exist in the quantum realm. Quantum physics has recognized Tachyon particles as the bridge between all frequencies and Source. These self-organizing sub-atomic particles traveling faster than the speed of light can be harnessed, concentrated, and infused into matter. Once infused, physical objects emit spiritual energy and temporarily suspend negative influences, such as electromagnetic fields (EMFs), air pollution, pesticides, GMOs, chronic stress, negative emotions, and entropy. Physicists identify this as the Zero Point Energy Field, from whence all Creation arises.**

Quantum physics has recognized Tachyon particles as the bridge between all frequencies and Source.

Immerse yourself in the quantum foam of infinite possibilities.

Zero Point Energy is the omnipresent field of pure, inexhaustible, and unlimited potentiality, which most call God. Tachyon is the interface or the bridge to this field. It energizes or informs the material world, manifesting with what quantum physicists call downward causation.

*Celeste says, "Tachyon immediately resonated with me! I know it is an accelerated healing opportunity, as well as a way to assist the evolution of our species to homo-luminous beings. I am thrilled to be announcing the Tachyon Chamber is now up and running!"*
