

## **Testimonials for Cosmos Professional Tachyon Chamber Experiences August 2021 to present**

“My Tachyon Chamber session was like nothing I've ever experienced in my life. My feeling of total relaxation and bliss was the most uninterrupted and profoundly healing experience I could have ever imagined. Upon first entering the beautiful space, I knew something imminently special was about to take place. Every detail in the room is devoted to total comfort as well as health of mind and body. The session itself is a transporting journey into your inner mind. Truly amazing, and inspiring!” Jack Banks, owner of Malibu Fitness Gym.

“I have been enjoying the benefits of Tachyons since Celeste introduced me to them several years ago. But when I sit in the Generation 3 Chamber and experience its energy it is at a whole new level. Waves of higher vibrations roll through what feels like every cell in my body, physical pain is greatly reduced, and I feel energized and rejuvenated on all levels. This is one of the strongest and purist new healing technologies I've encountered. I recommend it to anyone interested in deep significant therapeutic and energetic change. I look forward to each session like a spa day for my soul.” Bradford W. Tilden, MM, CMT, UWT, LSINH, Crystal Music Healing

“When I went to see Celeste for the Tachyon chamber therapy session I was 1.5 weeks out after major breast surgery. I did not know what to expect but I've worked with Celeste many years and I trust what she does with high regard. She has great integrity and has the ability to work in a very grounded structured way that is compassionate and yet she utilizes the highest energies and vibrational therapies.

I felt comfortable from start to finish she explained everything very matter of fact. The chamber itself is beautiful beyond words. It utilizes crystals, sacred geometry, and color therapy which is a favorite therapy of mine because the vibration of color helps to balance many aspects very subtly in the body mind and spirit.

There was a very short meditation which encouraged me to set my own intention and then instrumental music was played softly as I relaxed. At the end of the session I was nudged to return fully into the space and feel grounded again. I always felt fully grounded and fully in control but at the same time I felt the presence of these higher energies at work although I cannot tell you how.

I believe that the Tachyon Therapy help me greatly increase my healing ability as well as increased my energy after surgery. I am returning to work tomorrow and I believe that this healing session greatly prepared me to return back to work quicker than expected. I hope that you also will try this therapy. You will not be disappointed.” Audrey Bennett, LCSW, Integrative Therapist

“Dear Celeste, I want to express my gratitude and experience after my first Tachyon session. I didn't feel any different at first, I was a little tired that day. Gradually though my neck that was very stiff for almost a year- I couldn't move it without moving my entire body- has improved not only with movement, but less pain. I've also noticed less pain gradually in my knee, which I had broken the patella over 20 years ago. I've forgotten all about the pain! I feel blessed and thankful for the Tachyon therapy session and the tachyonized bead you gave me. It's truly wonderful and amazing to me how much better I feel and how it's helped improve my life. CK, Newington, CT

“My initial experience in the Tachyon Chamber was exquisitely profound. I experienced deep levels of

clearing and healing. I was able to release old blockages, programs, and beliefs that no longer serve me. In all timelines in all dimensions. I received multiple downloads that are unfolding very pleasantly in my life. For me, the effect of my sessions has been that I am able to stay in my deep heart center space for longer periods of time. I am able to radiate my energy from this space more powerfully and more frequently. The gift of being in the chamber has assisted me to hold higher levels of Light and become an Emanating Source of Higher Frequencies. I feel myself advancing with every visit.” Jeremiah R, Portland, CT

“I felt my body floating. I felt the vibration of the Tachyon Rods wherever I placed them. I felt energy movement in my body as I was concentrating on it. Felt physical stress leaving my body. My monkey mind was pretty quiet.” KH, Farmington, CT

“I loved it! I knew I would! I was so relaxed that I didn’t want it to end; it went by so fast! I was able to let go of some old painful memories- they came up and just floated out of my mind, without struggle. I can’t wait to come back.” CK, Danbury, CT

“I felt movement and tingling deep in my brain, where I had an old injury. It was clear to me that healing took place.” OK, Wolcott, CT

“My Tachyon Chamber sessions are clearly helping me feel better. While I am in the session, physically, my RA pain completely subsides. I experience a reduction in pain and discomfort that lasts at least 3 days after the session. To date, I have had three 45-minute sessions and overall, I am convinced that blockages in my spirituality and resistance to improving my life are being chipped away.” DR, Meriden, CT

### **Testimonials for Personal Tachyon Chamber Experiences 2016 – 2019**

“Since being introduced to Tachyon frequencies I immediately became hooked. I look forward to each weekly relaxing Tachyon meditation session. I purchased several Tachyon-Living products and enjoy the energy I receive daily from them. My Power Card is always in my pocket, my scarf can be seen draped around my shoulders while I work at my computer, and the power beads sit near my water bottle. I am calmer. I think more clearly. And I have had a significant reduction in lower back pain over the past month.” MS, Granby, CT

“My experience in the chamber was like bathing in pure consciousness. Seated in a comfy recliner with

headphones and relaxing music you begin to travel and feel the tachyon energy moving throughout your body and chakras. An eye mask and 8 chakra stones facilitated this process, clearing resistance and balancing all energy bodies in the subtle realm. I left with a wonderful sense of well-being and much to ponder! I highly recommend this experience for anyone who wants to feel Whole again and integrated.”  
Diane S. NY

“I immediately felt extremely calm and relaxed which allowed my body to feel a tingling effervescent movement of energy up-and-down my chakras that moved in gentle waves. As I was bathed in this beautiful subtle energy, I started to really sink into the experience of being inside my own wisdom chambers, uncovering deeper remembrance of who I am. In my mind’s eye, I experienced beautiful sacred geometry and felt my guides present during the session.” JW, Kent, CT

“From the moment I met Celeste and walked into her incredible space, I knew we had found a like-minded soul. Celeste has an amazing way of creating a safe welcoming space through her beautiful presence and amazing heart. In doing this, she set the stage for the most extraordinary experience with the Tachyon Chamber.” Jennifer W, NY

“My sessions in the Tachyon Chamber have been nothing short of miraculous. Each visit I have been able to relieve pain and increase my ability to relax and make progress with my goals.” RK, New London, CT

“My first Tachyon session was a compilation of various experiences. During the session, I felt very relaxed and could actually feel different parts of my brain being gently stimulated by the various “notes” in the music, which was a very cool feeling. Afterwards, I felt energized and got a ton of loose ends done when I got home and later on into the week. Overall, I found it both interesting and very beneficial for overall well-being. I felt great and am now eager to do a longer session next time!” AD, Terryville, CT

“It has been three months since my first Tachyon Chamber session. During that session I experienced the sensation that I was being touched on the arm by God. The next day my blood-work was normal for the first time in 1 ½ years. I do not take any AMA medical treatment and I have only had one other session and my blood-work is still normal and improving. My doctor is very impressed and states that this is atypical for multiple myeloma blood cancer.” CK, Bloomfield, CT

“My experience in the chamber was like bathing in pure consciousness. Seated in a comfy recliner with headphones and relaxing music you begin to travel and feel the tachyon energy moving throughout your body and chakras.
